BREWING WILL END DECEMBER 1

War Demands Require Step, Says Food Administrator Hoover.

All brewing operations in the country will cease December 1 until further orders and no more unmalted grains may be purchased for brewing purposes from now on, according to a telegram to F. B. Mumford from Herbert Hoover this morning. Manufacturers of beverages and mineral waters also have been warned there will be further curtailment in fuel for the manufacture of glass containers, of tin plate for caps, of transportation and of food products in such beverages. The telegram follows:

"On July 3 brewers were notified by the Fuel Administration that their coal consumption would be reduced by 50 per cent pending the period of exhaustion of materials that they had in process and were given preliminary warning that they might not be able to continue their operations at all after such exhaustion.

"At that time the Food Administration directed the cessation of further purchases of raw materials for malting. After a conference between the President and representatives of the Fuel, Food and Railroad administrations and the War Industries Board, it has been determined that the need of war industries for the whole fuel productive capacity of the country, the considerable drought which has materially affected the supply of feed stuff for next year, the strain upon transportation to handle necessary industries, the shortage of labor caused by the enlargement of the Army operations, render it necessary that brewing operations of all kinds should cease upon December 1 until further orders and that no further unmalted grains be purchased for brewing purposes from this date.

"The Food Administration has been directed to issue the necessary regulations to this end. In addition to the foregoing, these administrations wish to warn the manufacturers of all beverages and mineral waters that for the same reason there will be further great curtailment in fuel for the manufacture of glass containers, of tin plate for caps, of transportation and of food products in such beverages."

TRENCH BOOT IS MADE HERE

Shoes for American Soldiers Weigh Five Pounds a Pair.

Members of the American Expeditionary Forces will suffer little from trench feet and other ailments resulting from inadequate footwear, with the introduction of General Pershing's new trench boot. The Hamilton-Brown Shoe Co., is filling a large order for these boots for the United States Government.

The trench boot weighs five pounds a pair, and is constructed of heavy water-tight calf skin. The sole is heavily hob-nailed and the heel is reinforced by a steel horse shoe.

WILL BUILD NEW BRIDGE

County Court Lets Contract for Structure Near Huntsdale.

The Boone County Court yesterday afternoon let a contract for the construction of the Terapin bridge near Huntsdale to the Kansas City Bridge Construction Company. The new bridge will cost \$3,110 and is to be completed about November 1. Work will begin at once.

The old bridge was washed out during the heavy rains last week. The new one will be made of steel with concrete abutments.

State Normal May Not Have Team.

The indications are now that the Springfield Normal will not have a football team in the field during the coming season of the Missouri Intercollegiate Athletic Association. Coach A. W. Briggs is in the military service as an athletic director and will not be back to direct the teachers.

The Maryville Normal may also eliminate football. The Maryville team has been weak for several seasons and it is doubtful if it will care to go against the more experienced eleven of the circuit.

Drury College, which meets the Tiger team October 5, is preparing to put a team into action, and Coach Baldwin, a Springfield business man, again will be at the helm. Practically all the remaining members of the association will be represented by eleven.

Potsdam Finds Itself.

Potsdam, Mo., which had the unwholesome "distinction" of being the only community in the United States that failed to hold a War Savings meeting on June 28, in response to the proclamation of the President, has found itself. Although once suspected of pro-Germanism, Potsdam has since proved its Americanism and today proudly feels that it is one of the most patriotic villages in the country. Potsdam has not only gone "over the top" on Thrift Stamps but has pledged to at least take its quota of the Fourth Liberty Loan and all subsequent war issues. A movement is also on foot to change the name of the town to Pershing, Mo.

3,500 EXPECTED TO REGISTER IN BOONE

(Continued from Page One)

tion in the hands of district boards, General Crowder explained.

General Crowder outlined the machinery in granting deferred classification to men in the industries and professional life as follows:

The members of the industrial advisory board shall have access to the questionnaires and other records in the files of local boards and shall confer with persons engaged in various industries, occupations and employments for the purpose of having the cases of certain individual registrants, by whom or in whose behalf no claim of deferred classification has been made, presented to the district board for consideration.

"It shall be the duty of such advisers," the regulations add, "to confer with the managers and heads of various industries and those familiar with the needs in occupations and employments, including agriculture, and instruct such persons as to their rights under the regulations to file a claim for deferred classification in respect of any registrant who has failed or refused to file a claim for deferred classification in his own behalf or who has waived his claim for deferred classification."

Where cases are brought to the attention of the district boards by the industrial advisers the district board will call upon the local boards for the registrant's papers and will proceed to classify him, notwithstanding that he has waived his claim to deferment.

APPLE THIEVES LEAVE EVIDENCE

Revolver Shots Caused Them to Run From Under Their Hats.

The University authorities are holding as "exhibit A and B" against two students in the University a hat and cap worn by members of a party who tried to steal apples from the State Farm one night this week. The apple thieves were frightened away by the night watchman who fired a revolver in the air. The shots frightened the students so that two of them ran out from under their headgear, leaving the evidence behind for the watchman to find.

FIVE TO ATTEND MEETING

Columbians Are on Program of Farm Bureau Association.

Miss Carrie Panoast, state leader for home demonstration work, departed today for Pertle Springs to attend the third annual meeting of the Missouri Association of Farm Bureau Boards Friday and Saturday.

She will lead a discussion. Other Columbia people who will take part are: Prof. A. J. Meyer, director of agricultural extension in Missouri; P. H. Ross, county agent leader for Missouri; Mrs. Walter McNab Miller, and Dean F. B. Mumford.

MONARCHY IN GREAT BRITAIN

(H. G. Wells in the New Republic.) The monarchy in Great Britain is a compromise that was accepted by a generation regardless of education and devoid of any sense of the future. It is now a mask upon the British face; it is a gaudy and antiquated and embarrassing wrapping about the energies of the nation.

Because of it Britain speaks to her youth, as to the world, with two voices. She speaks as a democratic republic, just ever so little crowned, and also she speaks as a succulently loyal Teutonic monarchy. Either she is an adolescent democracy whose voice is breaking or an old monarchy at the squeaking stage. Now her voice is the full, strong voice of a great people, now it pipes ridiculously. She perplexes the world and stultifies herself.

R. E. MILLER MAKES FLIGHT

M. U. Graduate May Fly to Home at Mexico, Mo., Next Time.

Lieutenant Ray E. Miller, a graduate of the University, who is now a flying officer at Chanute Field, Rantoul, Ill., flew to St. Louis Sunday in a big Curtiss biplane on a twelve hour furlough. From there he went by train to his home in Mexico.

Lieutenant Miller intends to make the entire trip from Rantoul to Mexico in his biplane on time and says he thinks the trip will only take about six hours. Lieutenant Miller was a student in the College of Agriculture and a member of the Beta Theta Pi fraternity.

New Athletic Director at Rolla.

Ray Sermon, who was coach at Central College in Fayette last year, has been appointed director of athletics at the Missouri School of Mines and will take charge of his new position this month. Sermon succeeds Crach McConnell, who came to the school last season from the University of Arkansas. Sermon is a product of the state Normal School at Warrensburg, where he was under the tutelage of Dr. Forrest C. Allen.

PERSONAL NOTES

Members of last year's Savitar Staff will meet Thursday afternoon at 3 o'clock at the Missouri Union. All old members are urged to attend the meeting. Plans for this year's book are to be discussed.

Miss Vernie O'Neal, who has been visiting at her home in Fayette, returned to Columbia today.

Miss Leona Hickman of Hannibal arrived here yesterday. She will enter the University for her senior work in the College of Arts and Science. Miss Hickman is a graduate of William Woods College at Fulton, and attended the University of Wisconsin last year.

Robert Young, son of the chief of police of St. Louis, and J. H. Hickman, son of Mr. and Mrs. N. H. Hickman, of Columbia together with Mrs. Young and Mrs. Hickman, motored to St. Louis yesterday morning after having spent the week here visiting relatives.

Notice To The Public

ONE DELIVERY A DAY

At the request of the Conservation Division of the Missouri Council of Defense, the undersigned Merchants of Columbia have agreed

Beginning Wednesday, Sept. 18

to make but one delivery of merchandise per day to any individual or family. The Council of Defense has formulated the following rules, which will be strictly enforced:

All orders must be given the day before delivery—for instance: Orders given on Friday will be delivered on Saturday; orders given on Saturday will be delivered Monday.

Under no circumstances will a merchant be permitted to deliver an order the same day it is taken. The customer must call for goods personally, or send a messenger, if he wishes goods delivered the day he orders. No additions may be made to an order the day of delivery.

These rules will be enforced not only upon those merchants whose names are signed below, but also upon all others who sell groceries or meat.

Any merchant who violates the above rules will be subject to a fine of \$25.00 for each offense, the fine to be collected by the Council of Defense and made payable to the American Red Cross.

Remember—orders taken on September 18th will be delivered on the 19th, and so on.
